Department of Computer Science

Mid Term Project Proposal, Summer 20-21

Course Title	ADVANCED PROGRAMMING IN WEB TECHNOLOGY	Section	A

Group Members:

Student ID	Name	Signature
18-36939-1	S. M. HASIB	
18-36933-1	SHOURAV SHOME	
18-36304-1	RAJAN DAS GUPTA	
17-35507-3	JUI SAHA PRITHA	

Project Title:

Content Management System

Short Description:

Four types of users:

1. Admin
2. Content Creator
3. User
4. Manager

Basically main goal of our project is to establish a good connection between content creator and user of those content. From our website content creator will be able to directly create any content and make it visible to users. And users can view those content can also buy them accordingly. All kings buying selling will be handled by manager himself. And there is an admin who can have access to overall all sections. In this whole project there is a good communication between different user by in-built messaging system. By this project contents will be organized in a synchronized way which will be very user friendly.

Admin User Functionality:

1.Add any content creator

2.Delete any content creator
